

soabar

Labels, Swing Tickets and Barcode Printers

DC Series

The D4C and D6C printers are available as 300dpi which is well suited for chemical applications.

With the D4C and D6C series printer in your company, you can print chemical labels on demand and apply them into your products the same day without waste saving time and money within the business.

A change in the ingredients, a new barcode, sequential number or a change in the product name means you can print the exact label required each time.

With onsite installation and training you can be sure your staff will be able to operate the printer easily.

Free installation

Full onsite installation by our team of trained engineers
